Technology – resistant materials	Humanities	World Views	
Pewter Casting. Students will be designing an item of jewellery or a memento and then using the laser cutter to produce a mould for pewter casting. Students then cast their designs and finish them, before attaching to a chain or key ring.	People and Protest- Pupils will learn about key protests in history and how they have impacted us today. We will focus on The Civil Rights Movement and The Suffragettes.	Why should people be kind? In this unit students will consider why people should be kind. What would society look like if people were unkind? We examine Christian, Jewish, Sikh and Muslim teachings on kindness. All religions teach kindness, as do humanists – why? What are the rewards for being kind? If you are only kind to go to heaven or to get a better afterlife – is this kind?	
You can help your child by: Visit and work through ENGINEERING - DESIGN AND TECHNOLOGY (technologystudent.com)	You can help your child by: Strikes, protests and marches: What happens behind the scenes? - BBC Bitesize The Suffragette Movement - BBC Bitesize	You can help your child by: Take a look at the wonderful resources offered by the Red Cross Free children's kindness activities pack British Red Cross Complete the activity pack and complete the Spring Kindness Calendar with your child. These resources link World Views to PSHE and Citizenship showing some lovely cross curricular learning.	
PSHE	Life Skills	PE	
Identity and relationships, gender identity, sexual orientation, consent, 'sexting' and an introduction to contraception. Digital literacy, online safety, media reliability ad gambling hooks	Cleaning own home Understanding why we must clean and which products we use to help. Time Telling the time at o'clock and half past	Rounders Pupils will take part in a range of activities to develop their rounders skills. Outdoor Adventurous Activities Climbing Pupils will use the schools climbing wall to develop their climbing skills Athletics Pupils will take part in a range of running, jumping and throwing athletic events. Invasion Games Basketball Pupils will develop their knowledge of basketball.

Crossing the Line: PSHE toolkit Childnet Rise Above Stonewall	Talk about the topic areas with your child and reinforce what has been taught in school.	Throwing and catching is really important in rounders. To support your child you could help them by practicing these skills at home	

Spanish	Art		Citizenship		
Free time Saying what they do and when using present tense. Weather Saying what the weather is like and which activities they do depending on the weather.	Pop Art In this unit, students are looking at the Pop Art movement and the history of how it came about. They will study a variety of artists linked to the theme including Roy Lichtenstein and Andy Warhol and work in the style of these artists. Within this unit, students will develop their drawing and colouring skills in the appropriate style using paint, posca pens and relief. They will complete the unit by creating a personal response to the culture of Pop art.		People Power and Different opinions In this unit students will examine actions which citizens can take in the democratic and electoral processes to influence decisions locally, nationally, and beyond. Such as holding protests, writing letters, and joining pressure groups. Students will also look at diverse national, regional, religious, and ethnic identities in the United Kingdom and the need for mutual respect and understanding. This unit works in harmony with the Humanities and World Views unit this term.
